

Plainfield West 9 Golf Course - 1591 Woodland Avenue - Edison, NJ

Re: Angela Masseria

To Whom It May Concern,

It is with great pride that I write this letter of recommendation on behalf of Angela Masseria. I have known Angela for about six years, and she has proven herself to be a truly exceptional individual through her dedication to her education and to her golf game.

I had the pleasure of coaching Angela during the off season when the golf courses are not available in the North East. As the head coach and program director of The First Tee of Plainfield I have access to an indoor studio. I also have the pleasure to coach over 250 young and talented golfers every year.

I am very impressed with Angela's dedication to her golf game and her no nonsense hard work attitude. These two traits have allowed her to become a very good golfer. Her leadership and initiative has made a significant difference on the teams she has been a part of.

The First Tee 9 Core Values are integrity, honesty, respect, responsibility, judgment, confidence, courtesy, perseverance and sportsmanship. Angela demonstrates these important values by example both on and off the golf course.

Angela is a poised and confident young woman with great compassion and motivation. It has been a pleasure to witness her development first-hand in the time we have spent together. I offer her my highest recommendation.

Finally, I know Angela will be an asset to any organization, team, or school that she is associated with. I believe this for three reasons.

1. Angela will continue to improve
2. Angela exhibits the values I listed above and can get along with people
3. Angela comes from a great and caring family that will support her along the way

Thank you and please feel free to contact me with any additional questions you might have.

Golfingly yours,

Bill Castner
