

Devon was an extreme pleasure to coach. I enjoyed coaching such a young man as he always tried to give me his best and then some. Devon was and will always be a speed threat on the field. He has breakaway speed from many aspects of the football field. From the slot position to the running back or wide out position his speed has killed opponents and caused coaches to adjust given others opportunity to have success. There are those who didn't adjust and thus gave Devon a chance to do what he does and use his speed to make TD first downs or huge gains always moving forward. Devon has always held a high level of respect for himself and his coaches which makes him stand out as with his work ethic. I wish Devon all the success
