To Whom It May Concern,

I am writing this letter to recommend Jacob Stewart as a student athlete. I have served as Jacob's football coach the past two seasons and have seen him grow as a player, student, and a person. Jacob has been a three sport athlete at Riverside Brookfield High School since entering the school and has shown tremendous qualities on and off the field.

As a football player, Jacob has been a standout offensive lineman and defensive lineman. He played every position across the line and also served as the team long snapper on special teams. He had a willingness to play all positions, really do whatever was best for the team. Jacob is a true leader of the entire team. He sets the tone with each and every rep in practice and play within the game. He brings maximum force and energy during each play and really sets the energy level for his teammates. His teammates feed off his ability and thrive off his play. Using these skills, he has really grown as a leader both on and off the field. Jacob has always played to his highest ability, ending his sophomore season playing with the varsity team.

In addition to his work on the football field, Jacob has excelled in the classroom. He has challenged himself with several honors and AP classes. He works diligently to maintain his grades and seeks help on his own time when needed. Jacob also works hard to excel in more than just football. He is a standout athlete in both wrestling and track and field, receiving varsity status in his short time with both sports.

Outside of sports, Jacob works with the Best Buddies program at school, where he spends time with children with special needs in the school. He also works with Young Life, which helps develop his leadership skills both inside and outside the classroom and field. He also works for Little Brothers of the Elderly, and works to pass out food bags to elderly people in the community.

I highly recommend Jacob Stewart for his future endeavors. I believe his work ethic, leadership, and never quit attitude will continue to propel forward and help him grow in the future. I look forward seeing him development his tremendous skills.

Sincerely,

Ian Robins
